

# It's "time" to come together...

Hi everyone! Oroville Streetscape and Oroville Chamber here asking for your help with a project in our downtown!

We are excited to announce that an Oroville Town Clock Project has officially been given the go ahead, and therefore it is time for fundraising.

Naturally, a town clock would be a useful reference for town citizens, but more importantly it would enhance the central hub of activity providing the town with another "meeting place" landmark...This will be placed in front of Centennial Park, replacing a large tree.

Post Clocks are timeless (no pun intended). They first appeared in the US about 1870. Today, the street clock stands as an American tradition. It's a symbol of pride in workmanship, stability, and sense of community. The street clock is both a reminder of our past and will be a legacy for the future.

Now, that the clock project is full steam ahead...Oroville Streetscape/ TOI and the Oroville Chamber of Commerce would appreciate any contribution you'd be willing to make.

Whether you donate \$5 or \$500... Every little bit makes an impact and helps offset the costs for this community project, which is to include:

- Post Clock - Freight Delivery - Installation - Electrical - Raised Foundation - Landscaping

If you prefer to mail a check, please make it out to Oroville Streetscape and mail it to: Oroville Streetscape, PO Box 299, Oroville, WA 98844 (Please write "Town Clock" in the memo) Any funds raised above the clock project expenses will be applied to the projects Streetscape does that beautify downtown.

Thank you for your support!
